1956 Subject Index

of articles appearing in

Volume 120

Nos. 1 - 12

HERE IS your subject index of articles for 1956. It provides a convenient means of reference to information appearing in TEXTILE INDUSTRIES during the past twelve months. It also indicates the tremendous amount of worthwhile material published, much of which is of enduring value.

The index will be most helpful to readers who preserve their copies of TEXTILE INDUSTRIES as they are received, either in files or bound volumes. It will enable them to quickly locate articles in which they are interested; articles on a specific subject may be found by referring to the appropriate division heading (Mill Management; Cotton Carding, Spinning, Weaving; Knitting; Wool; Synthetics; etc.).

Many of the listings under the New Equipment headings refer to a page in the Mid-November issue of TEXTILE INDUSTRIES. This is TI's Annual Equipment Parade & Buyer's Guide, the first of which was issued in Mid-November of this year. It is a handy reference which should be useful throughout the year, combining in one convenient volume these three features: (1) a review of nearly 500 new items made commercially available during the preceding twelve months, (2) free technical literature available from suppliers, and (3) a departmentalized buyer's guide.

For those who do not preserve their copies of the magazine, the Index will still be useful, since copies of TEXTILE INDUSTRIES are on file in the majority of the public libraries in the textile manufacturing areas.

For the information of those desiring photographic reproductions of articles listed here, these are available from the following: U. S. Department of Agriculture Library, Washington 25, D. C.; American Chemical Society, 1155 Sixteenth St., N. W., Washington 6, D. C.; Photographic Service Div., New York Public Library, Fifth Ave. and 42nd St., New York 18, N. Y.; Georgia Institute of Technology Library, Atlanta, Ga.

Microfilm copies of complete volumes, from No. 114 (1950) may be purchased for a reasonable amount from University Microfilms, Ann Arbor, Mich.

TEXTILE INDUSTRIES is published monthly, with an extra issue in November. It is edited for the textile production and managing executive. Subscription rates: $2.00 per year; $3.00 for two years in the United States; in Canada and Pan-America, $2.00 per year; foreign, $5.00 per year. Publisher is W. R. C. Smith Publishing Co., Dalton and Atlanta, Ga. Editorial and executive offices, 806 Peachtree St., N. E., Atlanta 8, Ga.

Index of TI for 1956

Mill Management

Scale Models Useful in Plant Layout ... Jan. 75
Have You Tapped This Source of Performance Data on Your Fabrics? by Harry Cohen ... Jan. 80
15-Year Mill Margin for Six Cotton Print Cloths ... Jan. 81
Electronics in Your Future, by Thomas J. Fox ... Jan. 100
Integration and Flexibility—2 Keys to Success in Small Duck Mill ... Jan. 104
The New Monopolies, by Ringgold Arden ... Jan. 110
A Mill President Offers Some Thoughts on Modernization ... Jan. 139
Purchasing for the Textile Industry ... Feb. 117
Short Range Prospects Promising, Says ACMI President ... Feb. 151
Why NRDGA Cannot Accept Existing Standards for Fabrics ... Feb. 154
1956 Could Be Exciting, by Ringgold Arden ... Feb. 165
How to Use Ultraviolet Light in the Textile Industry ... Mar. 137
Hosiery Men Discuss Impact of $1 Minimum Wage Law ... Mar. 179
You Can Streamline the Plant Management Job ... Apr. 121
Trade Groups Urge Ruling to Prevent Misuse of Term "Imported" ... Apr. 125
"Will This Paint Prevent Mildew?" Only a Mill Test Can Tell You, by R. M. Watson ... Apr. 140
Maintenance Department Organization ... Apr. 162
Troubles in King Cotton's Realm, by Ringgold Arden
Part 1 ... Apr. 165
Part 2 ... May 151
Purchasing Department Form Saves Time and Labor ... Apr. 207
Textile Market Can Be 75% Greater by 1956, ACMI Told ... May 107
How the Federal Wage-Hour Law Affects Textile Manufacturers, by Newell Brown ... May 112
U. S. Mills Consumed 11% More Fiber in '55 Than in '54 ... May 134
Problems of Woven Carpet Mills Cited, by Herbert L. Shuttleworth, II ... May 147
Relationship Between Salesmen and the Manufacturer, by Edward Heathcote ... May 169
1955 Output of Broad Woven Goods 5.5% More than 1954's ... June 104
Possible Effect of Lower Tariffs on N. C. Textile Industry ... June 107
Reason for Dwindling Interest in Textile Courses ... June 121
Proposal to Create Interest in Textile Education, by Henry A. Rutherford ... June 122
You Can Take This Airplane with You ... June 123
Taxes and Tyranny, by Ringgold Arden ... June 134
Economic Geography of Industrial Materials (Book Listing) ... June 234
Import Quota on Textiles, Export Quota on Money—Cheney ... July 63
"Modest Optimism" in Wool Textile Industry—Nilsen ... July 65
Will Our Textile Production Be Decided in Tokyo? ... July 67
Canadian Textiles—Same Story But Different Villain ... July 69
ATMA Asks Support of Mills ... July 71
Editor John C. Fonville Retires ... July 81
Greenville Show Gets Bigger and Bigger ... July 85
400,000 Wool Spindles in South Now ... Sept. 123
Cost-Conscious Mill Men Are Headin' for Greenville ... Sept. 129
Preview of the 19th Greenville Show ... Oct. 146
Says Gin Damage to Cotton Retarding Its Progress ... July 89
New Rug Mill Built with Plan for Expansion ... July 96
How Automation in the Textile Industry Will Affect Management, Labor, and the Future, by R. M. Cushman ... July 110
The Public Interest, by Ringgold Arden ... July 117
Tufted Suppliers, Improve Your Products, Says Barwick ... Aug. 73
What Mills Can Do to Increase Sales of Wool Clothes ... July 99
Speed Handling of Learner Certificates ... July 141
Tar Spots—The Fleas on the Dog? ... Aug. 85
Production Planning for a Yarn Mill, by Herbert Young ... Aug. 98
In Topsy-Turvy Land, by Ringgold Arden ... Aug. 117
Maintenance Men Play Major Role in Purchase of New Equipment ... Aug. 125
Mr. Mill President, Is This What You Worry About? ... Aug. 137
1956 Textile School Graduates ... Aug. 139
Is Three Per Cent Variation Between Physical Inventory and Perpetual Inventory Too Great? ... Aug. 147
Hosiery Manufacturers Reminded of Anti-Trust Laws ... Aug. 160
A Medical Program for the Small Knitting Mill, by S. Benton Davis ... Aug. 161
Woolen Mills Are Being Exported—Axelrod ... Sept. 79
We Need a "Made in America" Campaign ... Sept. 87
Do Something About Taxes Now—NAM ... Sept. 113
Marketing Research Can Help the Industry, by Leland S. Liang ... Sept. 121
Diversification—Old Story to a Novelty Mill ... Sept. 126
Prepackaging—That's The Trend in Textiles Sold at Retail ... Sept. 130
Guaranteed Annual Inflation, by Ringgold Arden ... Sept. 155
Modern American Textiles Displayed ... Sept. 157
Are Kickbacks Hurting Textile Chemicals ... Oct. 139
More on Kickbacks ... Nov. 71
Forecasting and Budgeting Are Essential, by Edward J. Martin ... Oct. 171
Canadians Find Jap Mills Are Modern and Efficient ... Oct. 174
Do You Know What Yarns Knitting Mills Buy? ... Oct. 177
U. S. Fiber Consumption 1940-1956 ... Oct. 179
85 More Wet Process Plants in 1954 Than in 1947 ... Oct. 183
Recommendations of Cabinet Committee on Small Business ... Oct. 211
How Bates Solved a Piece Goods Packaging Problem ... Oct. 213
Read Pick Clocks Faster, Get Photographic Evidence ... Oct. 251
Customer Service Gets Boost from Integrated Data Processing, by V. L. O'Neill ... Nov. 77
Non-Woven Fabrics—Problems and Predictions ... Nov. 98
Machinery for Producing Non-Wovens ... Nov. 125
The Treasure Hunters, by Ringgold Arden ... Nov. 105
Notes on Japanese Cotton Spinning Industry ... Nov. 107
"Hands-Free" Telephone Service ... Nov. 159
A Sale Is Final When Customer Returns—Lyman ... Dec. 81
Textile Firms Can Diversy—Love ... Dec. 85
Of Fiber Battles, Textile Publicity, and the Guanaco ... Dec. 89
Task Group to Study Cotton Utilization ... Dec. 96
More Textiles Were Finished Last Year ... Dec. 121
Leave Statistics to the Statisticians, by John Duerst ... Dec. 122
On Fabric Quality and Informative Labeling ... Dec. 123

Industrial Relations

Staff Meetings Benefit Firestone Textiles ... Jan. 85
Skin Diseases—Nation's Greatest Industrial Affliction ... Jan. 107
Purchasing for the Textile Industry ... Feb. 117
This Employee Suggestion Plan Pays Off ... Mar. 103
Health Program May Add 10 Years to Working Man's Life ... Mar. 106
This Mill Increased Profits by Sharing Profits ... May 109
The Issue of Free Labor, by Ringgold Arden ... Mar. 149
How to Calculate Weavers' Piece Work Rates ... May 155
Human Relations in the Industrial Southeast—a Study of the Textile Industry ... June 234
A Primer for New Supervisors, by C. C. Auton ... Aug. 106
A Secondhand Goes Fishing ... Aug. 145
Labor Union Activities in Politics, by C. G. Caffrey ... Aug. 168
Carding Department Incentive System Keeps Fixers, Grinders, and Customers Happy ... Sept. 107
Record Attendance at Blue Ridge Conference ... Sept. 117
Confessions of an Economically Uneducated Man ... Sept. 128
Counters Register Operators' Pay in $ & ¢ ... Sept. 159
Collective Bargaining, by Ringgold Arden ... Oct. 189
Job Assignments—The Overseer ... Nov. 143
Of Fiber Battles, Publicity, and the Guanaco ... Dec. 89
Union Wins, Employees Lose, by Ringgold Arden ... Dec. 141
Train Supervisors, Moffie Tells STA ... Dec. 143
Safety Practices Save Eyes of Two at Jackson Mills ... Apr. 135
Accident Prevention Manual for Industrial Operations (Book Listing) ... Apr. 224
Safety Training Course for Supervisors, by William A. Hawn ... May 146
Campaign Launched to Prevent Accidental Falls ... Sept. 109
Industry's 1955 Accident Frequency Rate Up Over 1954's ... Oct. 179
Need A Good Accident Investigation Plan? By Emerson R. Boner ... Oct. 184

General Engineering

Photoelectric Controls in Manufacturing ... Jan. 101
What Can Happen When Lubricants Are Not Properly Handled ... Mar. 111
How to Choose and Use a Lift Truck ... Mar. 124
Mill Truck-Trailer Has Permanently Mounted Crane ... Mar. 161
Proper Storage and Handling of Lubricants ... Apr. 133
Maintaining Electric Motors ... Apr. 162
Servicing Loom Motors (Ga. Meet) ... Dec. 127
Maintaining Electric Motor Controls ... Apr. 163
Starter Switches for Pneumafil (Ga. Meet) ... Dec. 127
Maintaining Production Machinery ... Apr. 163
Instrument Maintenance ... Apr. 163
Air Conditioning Equipment ... Apr. 163
Corrosion of Air Conditioning Equipment (Ga. Meet) ... Dec. 127
Humidifier Maintenance (Ga. Meet) ... Dec. 127
Circuit Breakers (Ga. Meet) ... Dec. 127
Keep Those Pressure Relief Devices in Good Order, by Henry A. Johnson ... May 106
Quick Mix for Asphalt or Paint ... May 161
Yarn Conveyors Should Have Drop Door ... June 195
Tip for Shrink Fitting Metal Parts ... June 197
Easily Made Dial Trues Stock in Lathe ... July 147
Lathe Tail Stock Holder Saves 8 Hours on One Job ... Aug. 151
Bicycle Sweeper ... Sept. 205
Bench Leg Height Adjuster ... Sept. 207
Bottle Oilers Minimize Hand Oiling ... Oct. 180
Spinning Power Consumption Cut 10% with Oil Additive ... Nov. 84
Use Thumb Print Test for Drying Varnish ... Nov. 151
Choose the Right Casters, by W. C. Shea and Paul E. Wrenn ... Dec. 111

Meetings and Conventions

Georgia Slashing Discussion ... Jan. 97
Georgia Weaving Discussion ... Feb. 156
More on the First International Wool Textile Research Conference ... Feb. 163
Suggestions for Preventive Maintenance (ASME Meet) ... Mar. 140
Textile Mill Maintenance Round Table ... Apr. 162
ACMI 1956 Convention ... May 107
Cotton Spinners and Breeders Review Their Problems ... May 128
Georgia Operating Executives Discuss Carding Problems ... June 125
Georgia Spinning Discussion ... July 112
Alabama Slashing and Weaving Discussion ... July 118
Preview of Perkin Centennial and AATCC Convention ... Sept. 91
Perkin Centennial-AATCC Convention Report ... Nov. 99
"Import Threat No Mere Phantom" (Northern Textile Association Annual Meet) ... Nov. 123
First Meeting of Southern Wool Overseers ... Dec. 3
Cotton Chemists Convene in Capitol (Chemical Finishing Conference Report) ... Dec. 99
Georgia Weaving and Maintenance Discussion ... Dec. 124

Textile Manufacturing (from Fiber to Fabric)

COTTON

Articles on Wet Processing and Knitting of cotton fibers, yarns, and fabrics are listed in those sections

Opening, Picking, Carding

How to Spin Vicara Blends in Cotton Type Mills, by Lyman Billings ... Jan. 76
Make This Stretcher to Pull Lattice Aprons Tight ... Mar. 165
Antistatics (Ga. Meet) ... June 125
Fire Control (Ga. Meet) ... June 127
Opening-Picking with Quality, Quantity, Economy ... Nov. 90
Improved Opening and Cleaning at Woodside ... Dec. 149
Moisture Control (Ga. Meet) ... June 125
Picker Maintenance (Ga. Meet) ... June 127
Picker Door Cuts Fire Losses ... June 197
How to Get Better Picker Lap Quality, by Z. Szaloki ... July 94
Study of Picking and Carding Revealed Causes of Yarn Size Variation, by James M. Heavner ... Aug. 108
Mill Simplifies Yarn Count Control with Moisture Measuring Device in Picker Room ... Oct. 187
Spot Picker Lap Troubles Quickly ... Nov. 165
Card Grinders Do a Better Job When They Record Their Work ... Jan. 136
Mills Should Build Frame for Installing Card Shafts ... Feb. 175
Large Package Changeovers Cut Creeling at Limestone ... Mar. 105
Large Sliver Cans (Ga. Meet) ... June 125
Vacuum Stripper Modification Reduces Waste ... May 116
Repair That Vacuum Stripper Traverse Screw ... July 149
Answer These Questions on Card Grinding ... July 157
Corrects Snowballing ... Sept. 207
Oil That Traverse Screw ... Nov. 149
Traverse Grinder Speeds ... Dec. 155
Mr. Carder, How Do You Overcome This? ... Dec. 153

New Equipment

Treat Fiber and Reduce Ends Down ... Apr. 218
Screenless Condenser Is Self-Cleaning ... June 220
Cotton Opener Made to Remove Pepper Trash ... Oct. 257
"Shirley" Beater Section Improves Blending at the Picker ... July 165
Card Clothing Reduces Downtime ... Feb. 203
Dry Fluid Card Drive Gives Soft Start ... Sept. 209
Coiler Has Ball Bearings in Head and Base ... Oct. 253
Narrow Truck Carries Eight 18" Silver Cans ... Nov. 155
Card Drive Gives Finger Tip Control ... Dec. 171
Control System Prevents Opening Room Chokes ... Mid-Nov. 23
Build 85-lb Laps without Increasing Lap Diameter ... Mid-Nov. 21
Sealed Roller Bearings for Picker Calender Rolls ... Mid-Nov. 23
Card Stripping System Pieces Up Web Automatically ... Mid-Nov. 23
Package Drive for Cards Installed in Minutes ... Mid-Nov. 25
Drive Slows Doffer for Combed or Fine Carded Yarns ... Mid-Nov. 26
Large Sliver Cans and Floating-Bottom Boxes ... Mid-Nov. 25
Self-Loading Can Truck Rolls Under Card Cans ... Mid-Nov. 26
Card Coiler Can Table Doubles as Dolly ... Mid-Nov. 27

Drawing, Combing, Fly Frames

Yardage Knockoff on Ribbon Lapper Cuts Waste ... Mar. 136
Fan Increases Lap Winder Efficiency ... Apr. 207
Drawing Is the Key to Processing High Bulk Orlon, Rhyne-Houser Management Finds ... June 103
Mill Boosts Comber Production 2 1/3 Pounds Per Hour ... Jan. 103
Converted Slubber Twists Knotless High-Ply Yarn ... Mar. 169
How to Convert a Slubber for Twisting Coarse Yarns ... Apr. 132
Roving Frame Stop Motions (Ga. Meet) ... June 127
Setting Slubber and Spinning Rolls for Waste Yarns ... Sept. 199
Draft Proportionment at Roving Frames, by James R. Corley and Jack Simpson ... Dec. 114

New Equipment

Exact Sliver Yardage Control for Drawing Frames ... Jan. 147
Drawing Frame Produces Sliver of "Excellent Average Uniformity" ... Apr. 209
Two-Piece Lifting Rolls Present Slivers More Directly to Spoons ... May 185
New Spring Weighting Simplifies Drawing Frame Roll Changes ... May 188
Extended Drawing Frame Creel ... June 221
Drawing Frame Features Automatic Can Changing ... Oct. 261
Pneumatic Control for Ribbon Lap Machines ... Nov. 161
Finer Top Comb Improves Comber Sliver Quality ... Jan. 156
Helical Gears Improve Comber Detaching Motions ... Mar. 189
Drawing Conversion Features Suspended Tube Gears ... Mid-Nov. 27
Roving Frame Cleaner Does Not Blow Idle Frames ... Mid-Nov. 19

Spinning

Large Package Changeovers at Limestone ... Mar. 105
Reader Calls for Discussion of Large-Package Spinning ... July 159
Thoughts on Large Package Spinning ... Dec. 149
Pneumatic End Collector Improves Spinning ... Mar. 122
Mill Uses Frame Cleaner-Vacuum Scavenger Combination ... Apr. 124
Air Suction Cleaning (Ga. Meet) ... July 113
Analysis of Vacuum Scavenger System Waste, by F. G. Ernest ... Aug. 89
How to Determine the Correct Twist for Yarn, by John Duerst ... Mar. 145
How to Determine Spinners' and Doffers' Work Loads, by Maley Chagro ... Apr. 136
Spinning Coarse Yarns from Drawing Sliver, by Richard C. Moyer ... Apr. 145
Here's One Mill's Program for Buffing Rolls, by Ramon Parks ... May 120

Cotton Spinning continued

Are You Considering Spinning Modernization? by Robert E. Pomeranz ..... June 133
How to Get the Most from Spinning Building Motions, by Maley Chagro
Part 1 (Straight Warp Wind) ..... June 186
Part 2 (Straight Filling Wind) ..... July 88
Part 3 (Combination Warp-Filling Wind) ..... Aug. 124
Breaking-In New Spinning Rings (Ga. Meet) ..... July 112
Normal Traveler Changing Schedules (Ga. Meet) ..... July 112
Bonded Spinning Tapes (Ga. Meet) ..... July 112
Adjusting Spinning for Quilled Filling (Ga. Meet) ..... July 113
High Draft Spinning Systems (Ga. Meet) ..... July 113
Supplying Umbrella Creels (Ga. Meet) ..... July 113
Moving Day for Spinning Frames ..... Sept. 124
What Oilless Top Rolls Did for Three Mills ..... Sept. 149
Balanced Spinning Overhauling Schedule ..... Oct. 173
Ways to Save Money in the Spinning Department, by Maley Chagro ..... Nov. 102
Better Spinning with Treated Leather Aprons ..... Dec. 103

New Equipment

Traveler Cleaner Has Several Advantages ..... Jan. 152
Top Roll Suspension and Weighting Arrangement ..... Apr. 218
Spinning Saddle Guide Eliminates Cap Bars ..... Oct. 251
Spinning Top Arm Fits Two Systems ..... Dec. 175
Improved Silver-to-Yarn Spinner ..... May 184
Machine Spins Quality Coarse Yarns Directly from Sliver ..... June 217
Stronger Yarns Made on Silver-to-Yarn Frame ..... Oct. 257
Solve Entire Spinning Frame Cleaning Problem with One Unit ..... June 219
New Bobbin for Gwaltney Frames ..... June 220
Uniform Suction at Each Spindle One Feature of this Pneumatic End Collector ..... June 226
Anti-Friction Spindle Permits Higher Speeds and Larger Packages ..... July 168
Spinning Spindle Has Brakes Cast Into Split Base ..... Oct. 263
Machine Retips Three Skewers per Minute ..... Aug. 175
Speed Spinning Frame Creeling with this Bobbin Hanger ..... June 223
Creel Bobbin Holder Eliminates Roving Stretch ..... Aug. 176
Draft Roll Cover Bleeds Static Into Steel Roll ..... Sept. 211
Make Better Yarn with New Spinning Tape ..... Sept. 213
High Friction Spinning Tape Has Long Life ..... Nov. 162
All-Count Spinning Frame Easily Repaired ..... Oct. 253
Steel Spinning Creel is Stronger and Cleaner ..... Oct. 258
Long Draft Conversion Is Easily Cleaned ..... Nov. 159
Slubbing Device Prevents Patterns ..... Mid-Nov. 47
Spinning Roll Alignment and Pressure Supplied by Arm ..... Mid-Nov. 69
Vacuum Scavenger Has Improved Flute Suspension ..... Mid-Nov. 57
Roving Sits in Topless Spinning Creel ..... Mid-Nov. 49
System Offers Complete Spinning Frame Conversion ..... Mid-Nov. 61
Anti-Friction Spinning Uses Spring and Dead Weighting ..... Mid-Nov. 63
Fiber Suction System Aerodynamically Designed ..... Mid-Nov. 68
Tried and Proven Features in a 25" Spinning Frame ..... Mid-Nov. 47
Spinning Frames with Built-In Suction System ..... Mid-Nov. 63
Drafting System Offers Four Arrangements of Top Rolls ..... Mid-Nov. 45
Shear Pin Protects Top Roll from Lap-Up ..... Mid-Nov. 67
Two-Zone Drafting System for Fibers up to 3" ..... Mid-Nov. 66
Machine Cleans and Burnishes Knurled Spinning Rolls ..... Mid-Nov. 57
Spinning Tension Pulley Has Double Row Ball Bearing ..... Mid-Nov. 43
Doff Box System Minimizes Yarn Handling ..... Mid-Nov. 45
Doff Boxes Designed for Large-Package Spinning ..... Mid-Nov. 66

Spooling, Quilling, Twisting Winding, Warping

Multi-Story Mill Cut Handling Costs With Automatic Yarn Supply to Spoolers ..... Jan. 83
Truck Simplifies Large-Package Spooling and Warping ..... Feb. 149
Yarn Conditioning Attachment for Quillers ..... Oct. 182
How to Count Yardage or Hanks on a Ring Twister ..... Feb. 153
"How We Solved a Problem in Making Fancy Yarns," by William B. Younger ..... June 119
How One Mill Improved Its Paper Leno Fabrics ..... Sept. 163
Cut Cotton Ply-Yarn Waste Costs, by Frank Vogel ..... Nov. 106
Reduce Twister Spindle Failure ..... Dec. 145
Mill Saves Money by Using Yarn Carton with Drop Door ..... Feb. 161
Quill Winder Production Increased 14% ..... Apr. 156
Shower Rings Help Maintain Cone Size Regularity ..... May 159
Here's What the Correct Angle of Wind Does for a Cone of Yarn ..... Aug. 118
Stop Yarn Lashing on Scharer Winders ..... Nov. 144
How to Make a Beam Lock Stud Pusher ..... Feb. 179
Warping Package-Dyed Yarns? Try This ..... Apr. 134
Change Horizontal Warper to Warp Section Beams Directly ..... Aug. 152
Low Rail Is an Aid to Creelers ..... Oct. 245

New Equipment

Economical Way to Make Multiple Ply Yarns ..... Jan. 149
Live Creel Spindle for Twisters Improves Quality of Product ..... Mar. 186
Process for Making Multiple Core Yarns ..... June 220
Versatile Twister Features Unit Construction ..... June 227
Large-Package Paper Twister With "Wet-Twist" Unit ..... Oct. 263
Twister Has Stationary Lifter Rods ..... Dec. 180
High Production Precision Winders ..... Jan. 151
Improved Precision Winder for Heavy Yarns ..... Apr. 215
Cone and Cheese Winder Features Unwinding Accelerator ..... July 167
Attachment Converts Winders to Make Cones for Tufters ..... July 171
Automatic Cop Winder Doesn't Stop for Doffing ..... Oct. 256
Tension Bracket Keeps Quills From Jamming at Winder ..... Oct. 260
Yarn Conditioning Attachment for Quillers ..... Nov. 161
Powerful, Shockless, Static Eliminator for Warpers ..... Feb. 207
Creeling Ladder Makes Handling Easier, Faster, Safer ..... July 170
Direct Beam Drive Warper Prepares Hard or Soft Beams for Slashing or Dyeing ..... July 171
Sectional Warper Maintains Constant Speed ..... Aug. 179
Swinging Package Arms for Magazine Creels ..... Nov. 159
Beamer Prepares Raschel Warps of Any Width ..... Nov. 164
Beamer Offers Power Doffing ..... Dec. 171
Winder Operates with 11,000 rpm Spindle Speed ..... Mid-Nov. 66
Quiller Designed for High-Speed, Labor Saving Output ..... Mid-Nov. 64
Quiller Speed Doubles Former Output ..... Mid-Nov. 43
Tension Guides Offer Long Life, Close Control ..... Mid-Nov. 49
Synthetic Sapphires in Thread Guides ..... Mid-Nov. 53
Jet-Engine-Quality Ceramics Used in Thread Guides ..... Mid-Nov. 45
Section Beamer Offers Speeds up to 1000 ypm ..... Mid-Nov. 45

Slashing

Measuring Stretch at Slasher (Ga. Meet) ..... Jan. 97
Experience with Homogenized Size (Ga. Meet) ..... Jan. 97
Homogenized vs. Thin Boiling (Ala. Meet) ..... July 120
Synthetic Squeeze Rolls (Ga. Meet) ..... Jan. 98
Use of Rubber- or Synthetic-Covered Squeeze Rolls (Ala. Meet) ..... July 118
Size Viscosity Control (Ga. Meet) ..... Jan. 99
How Alabama Mills Check Size Viscosity ..... July 120
Changing to Larger Section Beams (Ga. Meet) ..... Jan. 99
Mill Pleased with Shirley Hood for Slashers (Ga. Meet) ..... Jan. 99
Processing Wet Beams (Ga. Meet) ..... Jan. 99
What Is Recommended Hardness of Slasher Rolls? ..... Feb. 187
Annual Savings from Starch Conveyor Equal ⅓ Its Cost ..... Apr. 144
Warp Sizing, by Paul V. Seydel
Article 1 ..... May 99
Article 2 ..... June 111
Article 3 ..... July 102
Article 4 ..... Aug. 126
Article 5 ..... Sept. 132
Article 6 ..... Oct. 194
Article 7 ..... Nov. 108
Article 8 ..... Dec. 128
Controlling Stretch at the Slasher (Ala. Meet) ..... July 118
Multi-Motor Drive Benefits (Ala. Meet) ..... July 120
Denim Wear Life Increased with Latex, by James Farrow ..... Aug. 123
Want Less Slasher Waste? ..... Sept. 116

New Equipment

Compact Slasher Offers High Output and One-Man Operation ..... May 182
1,000 lb per hr From 1 hp Homogenizer ..... Sept. 215
Beam Storage Racks Made to Order ..... Sept. 218
Device Cooks Size Instantaneously Only As Needed ..... Oct. 259
Size Box Provides Controlled Pickup ..... Oct. 262
Uniform Heat Control Feature of Warp Lubricator ..... Oct. 264
Apply Wax to Warps to Up Weaving Efficiency ..... Nov. 156
Slasher Head End Speeds Doffing Cycle ..... Mid-Nov. 95

Weaving; Cloth Room

"Cut Meter" for Heavy Warps Can Be Made in the Mill ..... Jan. 133
Extra-Long Bolt Makes It Easy to Tighten XD Picker Stick ..... Jan. 135
Tool Speeds Harness Wire Bending ..... Jan. 141
Prescription for 3-D Fabric — Dip in Boiling Water ..... Feb. 150
Is Right Filling Fork Asset or Liability (Ga. Meet) ..... Feb. 156
Quality Control in Weave Room (Ga. Meet) ..... Feb. 156
Advantage of Aluminum Lays (Ga. Meet) ..... Feb. 157
Experience with Bartlett Let-Off (Ga. Meet) ..... Feb. 157
How to Prevent Cracks in Corduroy Wales (Ga. Meet) ..... Feb. 157
Having Trouble with Corduroy Selvage Ends? ..... Mar. 162
Standard Friction Drives on X-2 Looms (Ga. Meet) ..... Feb. 157
Center Filling Fork (Ga. Meet) ..... Feb. 157
Speeds Found Most Practical on X-2 Looms (Ga. Meet) ..... Feb. 159
Mechanical vs. Electrical Warp Stop Motions (Ga. Meet) ..... Feb. 159
Running Several Sizes and/or Colors of Filling? (Ga. Meet) ..... Feb. 159
Tension Build-Up on Filling (Ga. Meet) ..... Feb. 161
Experience with Loop Selvages (Ga. Meet) ..... Feb. 161
Running Loop Selvages (Ga. Meet) ..... Dec. 124
Check Straps on X-Series Looms (Ga. Meet) ..... Feb. 161
Using Two or More Loom Fixers on Same Job as Team (Ga. Meet) ..... Feb. 161
Huntsville Set Up an Assembly Line to Rebuild Looms ..... Mar. 116

Well-Supervised Program Pays-Off in Weave Room by Frederick M. Fitzgerald ..... Mar. 140
Weaving Narrow Warps on Wide Looms ..... Mar. 166
Weave Room Records Simplified with Standard Forms, by Mark Haines ..... Apr. 158
How to Weave Filling Cords on Cam Looms ..... Apr. 195
Way to Hold Picker Stick While Tightening Screw ..... Apr. 205
Masterpiece in Silk Received by Smithsonian Institute ..... May 115
In-Place Repair of Lay Swords ..... June 191
Spring Keeps Filling Tight on Thread Guides ..... June 195
Jig Holds Transferrer Securely for Welding ..... June 197
Cleaning Posts and Ceilings in Weaving (Ala. Meet) ..... July 121
Nylon in Lieu of Bristles and Fur (Ala. Meet) ..... July 121
Nylon Fishing Cord Cuts Shuttle Fur Costs ..... Oct. 243
Nylon Loops in Shuttles (Ga. Meet) ..... Dec. 125
Cloth Quality Control in Weave Room (Ala. Meet) ..... July 123
Unified Cloth Control System at Buck Creek ..... Nov. 86
How to Calculate Weavers' Piece Work Rates ..... July 145
How Are Lenos Woven on Narrow Fabric Looms? ..... July 149
Maybe This Will Solve Your Power Strap Problem ..... July 157
How the Roberts Anniston Selvage Is Made ..... Aug. 100
Woven vs. Tufted Carpets ..... Aug. 143
Display Board in Lieu of Storage Cabinets ..... Aug. 149
How to Get 2½ ppi on XD Looms ..... Aug. 151
Tips on Pick-and-Pick Weaving, by Calvin Lee ..... Sept. 118
Toxaway's New Loom Cleaning Program ..... Sept. 153
Crow-Hop Requires Temple Cap Change Only ..... Sept. 201
Auto Jack Makes Lift for Mounting Motors ..... Sept. 205
Chewing Gum Repairs Reed ..... Sept. 207
Piston Ring Tightener Is Roll Covering Aid ..... Oct. 245
This System Cut Battery Filling Costs ..... Nov. 89

Make Better Selvages With This Attachment for Temples ..... Jan. 147
Steel Fillet for Loom Roll Surfacing Features Controlled Break-Through ..... Jan. 149
The Art and Craft of Hand Weaving (Book Listing) ..... Jan. 161
Looms Permit Insertion of One Wire to Every Pick ..... Feb. 205
Device Provides Positive Warp Tension Control ..... Apr. 211
Aluminum Pick Arm Improves Picking Action at Loom ..... Apr. 215
Open-Shed, Double-Lift, Double-Cylinder Jacquard ..... May 187
New Loom Cleaner May be Mounted on Beam Handling Crane ..... June 217
X-2 Model Looms Increase Weave Room Versatility ..... July 163
Automatic Double-Shuttle Plush Loom ..... Aug. 171
Shuttle-Changing Loom Does Not Stop for Transfer ..... Aug. 180
Handy Loom Oiler Saves Time and Money ..... Sept. 211
Interesting New Developments for Looms ..... Sept. 214
Weave Plain or Jacquard Carpets 2½ Times Faster ..... Sept. 220
Filling Magazine Saves Labor, Reduces Seconds ..... Oct. 251
How To Cut Weave Room Cleaning Costs ..... Oct. 262
Hand Looms for Quick Pattern and Sample Making ..... Nov. 156
All-Steel Battery Filler Trucks, Transports, Boxes ..... Nov. 162
Clutch-Brake Loom Motors ..... Dec. 171
Oscillating Unit Cleans Back and Front of Looms ..... Dec. 173
Stand Spouts Control Prepositioned Filling ..... Dec. 177
Loom Motors Have High Overload Capacity ..... Dec. 181
Hydraulic Cloth Roll Lowering Table ..... Jan. 149
Metal Detector for Fabric Inspection ..... Jan. 153
Simplify Cloth Inspection with this Machine ..... Feb. 205
Selvage Uncurler with Automatic Adjusting Feature ..... Feb. 211
Railway Sewing Machine Offers Advantages of More Production, Less Maintenance ..... May 186
Electro-Mechanical Weft Straightener ..... May 191
Machine Automatically Cuts Textiles on Line or Thread ..... June 224
New Cloth Inspection Equipment ..... Sept. 216
Brush and Shear Range for Cottons, Synthetics ..... Oct. 259
Automatic Fabric Feed Control ..... Dec. 175
Device Makes Straight Ends on Cloth Rolls ..... Dec. 179
Loom Filling Winder Eliminates Several Steps ..... Mid-Nov. 91
Oscillating Unit Cleans Back and Front of Looms ..... Mid-Nov. 97
Loom Parallel Motion Saves Shuttle Wear and Downtime ..... Mid-Nov. 102
Cloth Examining Machine Features Variable Speed Drive ..... Mid-Nov. 95

Designing, Drawing-In, Tying-In

The Designing Department Does More Than Design, by Osbert Hughes ..... Jan. 87
A Mill Designer Discusses Samples ..... Feb. 179
Construction and Weave Are a Big Part of Fabric Hand, by George Sonnenberg ..... May 130
"Birth of a Tie Design" ..... July 93
Special Ties Increase Jacquard Capacity, by Osbert Hughes ..... Dec. 104
Warp Wrench Is Handy at Tying-In Machine ..... Jan. 141
What Is Best Way to Tie Warps at Loom? (Ga. Meet) ..... Feb. 156
Portable vs. Stationary Tie-In Machines (Ala. Meet) ..... July 121
Use of Portable Tying-In Machines (Ga. Meet) ..... Dec. 125

New Equipment

Tying-In Machine Selects Lease from Drop Wires ..... Oct. 253
Machine Separates Ends to Speed Drawing-In ..... Dec. 173
Frame Lifts, Transports, and Sets in Warp and Pattern ..... Mid-Nov. 97

Tufting

Tufted Carpets Latexed Outdoors ..... Jan. 139
Tufting Yarn Spinner Shares Know-How on Making Thinning Scissors ..... Mar. 161
Tufted Textiles, 1956 ..... June 137
Tufted Textiles — Progress and Problems, by Eugene T. Barwick ..... June 138
Quality Control — Blueprint for Tufted Textiles, by J. L. Fesperman ..... June 140
Quality Brought Quantity to E. T. Barwick Mills ..... June 142
Georgia Mill Weaves Jute Backings for Tufted Carpets ..... June 152
Tufted Textiles — News and Opinion ..... June 164
Yardage Machine for Making Small Rugs, Spreads, and Bath Sets ..... June 222
Tufteds to Feel Foreign Competition—Dalton ..... Aug. 83
Tufting Machine Produces Patterns in High and Low Nap ..... Mid-Nov. 97

WOOL
